

# King of Glory, Risen Lord

Christ's ascension. In many ways it seems that Jesus is back in the place he belongs. For a while, he dwelt on earth, but then returned to the right hand of his Father. Of course, this all gets complex theologically. Jesus returns to heaven having experienced worldly temptation, pain, and death. Things are changed forever.

Emmanuel ascends into the heavens, and fortunately we have some of his life recorded in scripture. We have the stories of healing, the stories of servant hood, and the stories of love. The scriptures say that the stories are so many, they could not all be recorded. It's because of these stories we see in that our God is one who brings peace and joy. Peace in the midst of storms in life and joy even when we face pain.

Because we worship a resurrected and ascended Christ, we have the hope that every knee will bow and every tongue will confess that Jesus Christ is King. As we sings these truths, may we be ever mindful of them and the power found in them.
